## **More about this directory**

This directory is intended to help people find services. Groups are listed in alphabetical order. For up-to-date information, or to search by postcode, use the online directory: [www.ctonline.org.uk](http://www.ctonline.org.uk).

It brings together information about community transport groups and services in Oxfordshire. It was put together in June 2014, by Oxfordshire Rural Community Council with some help and funding from Oxfordshire County Council.

You can also call the Oxfordshire Travel Advice Line (Oxtail) on 0845 310 1111 (select option 5) or email [oxtail@oxfordshire.gov.uk](mailto:oxtail@oxfordshire.gov.uk). It offers free impartial advice on a range of transport options for older people or those with a high level of support needs.

## **More about community transport**

Community transport is run by the community for the community, meeting needs that are not met in other ways. Some groups offer services just for their members, others are open to the public.

## **Help and advice**

You may find that the service you need is not on offer where you are. The Community Transport Adviser at ORCC offers advice on developing community transport services. Call Emily Lewis on 01865 883488 or look for more information on [www.oxonrcc.org.uk](http://www.oxonrcc.org.uk).

Oxfordshire County Council is keen to encourage community transport schemes. Contact Shirley McAneny, Transport Co-ordinator [shirley.mcaneny@oxfordshire.gov.uk](mailto:shirley.mcaneny@oxfordshire.gov.uk) for information on available funding. You can also look on the council's website [www.oxfordshire.gov.uk/communitytransport](http://www.oxfordshire.gov.uk/communitytransport)

## Other transport options

Community transport does not compete with other transport services, it fills the gaps. Think about whether there are other services that could meet your needs first, for example:

### Public transport services:

Perhaps with someone to help show you the way, until you feel comfortable travelling on your own

- [www.oxfordshire.gov.uk](http://www.oxfordshire.gov.uk) – look for ‘public transport’
- [www.transportdirect.info](http://www.transportdirect.info)

### Oxfordshire Liftshare:

An online liftshare matching service open to anyone over 18 years

- [www.oxfordshireliftshare.com](http://www.oxfordshireliftshare.com)

### Dial-a-Ride services:

For those with mobility, visual, severe learning or other significant difficulties in using conventional public transport

- [www.oxfordshire.gov.uk](http://www.oxfordshire.gov.uk) – look for ‘dial-a-ride’

### Taxis or commercial vehicles for hire:

You could join up with others if they need to go the same place around the same time. Some taxi companies have vehicles adapted for use by people with disabilities or young children

- Contact your local district council for details

### Non-emergency patient transport:

Free for those who are eligible for medical reasons ([www.nhs.uk](http://www.nhs.uk))

- Check with your health provider (GP or hospital) if you are eligible

### School transport

- [www.oxfordshire.gov.uk](http://www.oxfordshire.gov.uk) – look for ‘school transport’

### College transport

- Contact your college for details

# What is Community Transport?

**Community transport offers safe, accessible, cost-effective, flexible transport run by the community for the community.**

Most of us take it for granted that we will be able to get to the places we need to. However, when people can't drive or access public transport, they can be left stranded.

Community transport offers a lifeline in rural and urban areas, helping those who find it difficult to access other transport.

Across Oxfordshire, many groups offer community transport services, including:

- volunteer car schemes
- door-to-door minibus services
- group transport for voluntary organisations
- scheduled minibus services.

Community transport services are not for profit, but may make a small charge to cover costs such as fuel. Most services rely on volunteers.
