

Community First Oxfordshire, founded in 1920, is a community development charity supporting and advising on community led action across Oxfordshire since, helping 4500 plus volunteers fulfil diverse roles in their communities. www.communityfirstoxon.org

Young people are our future community leaders. We are supporting schools, youth groups, guides and scouts, home-schools, churches and other faith groups, in giving young people opportunities to explore community, active listening, team-building and engage in all age community-based planning and social action.

Workshops include:

Be Community - love where we live, our story

Listen Together - active listening skills

Teams R Tops - team building

Speak Up - public speaking & communication skills

Create Together - campaign to change

Make a Difference - community action

Helping communities help themselves

Young People already contribute to community life and are our future community leaders. They need support to enhance core skills and experience in active listening, problem solving, teamwork, planning, leadership and social action projects.

Together We Can® (TWC) workshops are designed to give young people knowledge, skills and confidence for engaging in all age community planning and action. *Could you invite young people to join neighbourhood planning groups or set up a young people's forum for your parish council?*
